3. DATE-TIME GROUP  Local <i>08/0345 Z Feb 55</i> GMT	4. TYPE OF OBSERVATION  <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar  <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar	
5. PHOTOS  <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	6. SOURCE Civilian	
7. LENGTH OF OBSERVATION approx 45 minutes	8. NUMBER OF OBJECTS one (1)	9. COURSE alternately R/W
10. BRIEF SUMMARY OF SIGHTING  One (1) object, alternately red and white was observed to apparently maintain a slow and straight course, after an initial spurt of speed which covered 3-4 miles.		11. COMMENTS  The duty officer at the Miramar Airport stated in the preliminary report that he scanned the sky at the time the report came into him and that the only lights that he could see were red lights from field radio towers and red, green and white lights from airfield beacons. This report is resolved as probably airfield lights.

PART ONE

1. SOURCE [REDACTED]

FOR OFFICIAL USE ONLY

Classification: ~~SECRET~~

Declassify: ~~SECRET~~

1.1. **Background:** SOURCE was a female who was performing night work at [REDACTED] Site C, [REDACTED] and experienced low-level EMF exposure during her employment. SOURCE stated that she had been working there for approximately 10 years and that she had never experienced any adverse health effects due to the [REDACTED] exposure. She stated that she had no family history of health problems and that she had never smoked. SOURCE stated that she had never made any arrangements to leave the [REDACTED] area.

1.2. **SOURCE'S OBSERVATION OF UNIDENTIFIED OBJECTS (UFO'S):**

1.2.1. SOURCE said that she observed several UFO's between 1970 and 1975 while working at [REDACTED] Site C.

1.2.1.1. On several occasions (approximately 10) between 1970 and 1975, SOURCE observed a bright ball of light that was sometimes to the west, sometimes north and to the south of her position. The object seemed to be between 500 to 2000 feet above ground level. The object usually appeared as a bright white light. Sometimes the object was stationary and other times it moved across the north-south axis of the [REDACTED]. SOURCE used an ordinary two-cell flashlight and infrared noise code to track the object and stated that the [REDACTED] infrared noise code worked best. SOURCE stated that the object blazed a trail to her in front of the object. SOURCE was very curious and often was unable to sleep due to SOURCE anxiety over the message [REDACTED] had heard. SOURCE and SOURCE's husband [REDACTED] both saw the message. SOURCE stated that she and her husband [REDACTED] followed the object up to [REDACTED] office where it moved to the northern part of the [REDACTED] and disappeared. SOURCE said that she had a good view of the object. SOURCE never used binoculars to observe the object.

1.2.1.2. On approximately 10/10/2002 [REDACTED] said SOURCE was observing Object #1. [REDACTED] objects appeared from the east. [REDACTED] each object had a similar white light on it which was not [REDACTED] SOURCE could see three or four seconds but the objects moved so fast that it was impossible to count them. SOURCE blazed a trail behind them and SOURCE followed the trail to the north. SOURCE said that the objects then descended to the horizon. The objects measured approximately 10-1000' x 10-100'. From the south the objects [REDACTED] about 500 feet apart. SOURCE said that [REDACTED] and SOURCE saw the objects disappear to the horizon. SOURCE said that [REDACTED] and SOURCE saw the objects disappear to the horizon.
